

HUNTER KEMP

Junior Developer

PERSONAL BACKGROUND

I'm a recent school leaver aged 16, looking to work my way up the tech industry in cybersecurity or development related fields. My ultimate goal is to become a pentester, but I definitely want to develop and maybe try out a consultant role.

SKILLS

Digital Literacy
Teamwork
Critical Thinking

TECHNOLOGIES

- Python
- Node.js
- Bash
- HTML
- CSS
- GitHub
- CircleCI
- Sqlite
- Flask
- Express

EDUCATION

Coder Academy

Diploma of I.T (Cybersecurity) |

2019 - Present

- Python
- Node.js
- Cyber Security

PROJECTS

CombAPI

01/2020 - 2/2020

- API running on Express.js
- Connects to a sqlite database through the use of an ORM
- Create, Read, Update, Delete operations available on the database via the API
- Use of middleware to log requests, and prevent common vulnerabilities
- Use of a templating engine to display query results

Website Portfolio

08/2019 - Present

- HTML for structuring, CSS for styling.
- Utilized Bootstrap and flexbox to create responsive webpages
- Plans to refactor the project into an Express app that uses React in the future.
